

20
JUNE 2026

EMERGENCY SCENARIO

CASTRECCIONI DAM:

An extreme seismic event could compromise the safety of the dam and cause a flood wave along the Musone River, with possible flooding and dangerous situations for the population.

ATTENTION
THIS IS
AN **EXERCISE**

**THERE IS NO REAL
EMERGENCY**

The objective is to verify that the Civil Protection system is ready to protect the population in case of extreme events.

WHAT YOU MAY NOTICE DURING THE EXERCISE

WHY IS IT CONDUCTED?

- ✓ IMPROVE CITIZENS' SAFETY
- ✓ VERIFY EMERGENCY PLANS
- ✓ TRAIN OPERATORS AND VOLUNTEERS
- ✓ TEST ALERT COMMUNICATIONS (IT-ALERT)
- ✓ IDENTIFY AND CORRECT POTENTIAL ISSUES

**THE MORE WE PREPARE TODAY,
THE MORE READY WE ARE TOMORROW**

YOU WILL RECEIVE AN IT-ALERT AT AROUND 11:20

READ THE MESSAGE

DO NOT BE ALARMED

**DO NOT CALL 112 OR 115
TO REQUEST INFORMATION
ABOUT THE EXERCISE**

**FOLLOW ONLY THE INSTRUCTIONS
OF THE AUTHORITIES**

**EXERCISES ARE MEANT TO PROTECT,
NOT TO ALARM**

IT-alert
Sistema nazionale di allarme pubblico

TEST TEST – Test message
IT-alert
A **SIMULATION** a dam collapse is in progress in the area where you are located.

To learn the message you would receive in case of real danger and to fill in the questionnaire, go to: www.it-alert.gov.it
- TEST TEST

THIS IS AN EXAMPLE OF THE MESSAGE YOU WILL RECEIVE ON YOUR MOBILE PHONE BOTH IN ITALIAN AND IN ENGLISH

WHERE IT TAKES PLACE

14 municipalities along the Musone River are involved. The detailed list is available on the institutional websites of the municipalities and Regione Marche.

SAFETY IS TEAMWORK

Thanks to everyone's contribution, the community becomes safer and more aware.
